Department of Computer Science with Institutional Innovation Council (IIC) at Sagar Institute of Science Technology and Research Bhopal organized online session “**Block Chain for Entrepreneurs**” on 8th August 2022.

Blockchain helps businesses to streamline the supply chain in a secure, transparent, and hassle-free manner. Data immutability and decentralized authority are important in the supply chain because it is a process where a continuous record of data needs to be maintained.

Most people think like being an entrepreneur is about coming up with a new idea for the business, but it doesn't stop here it also includes that how you will reach to the clients and customers in an affordable & effective way.

Objective:

The main objective of this workshop is to aware the students with new concept of block chain technology and the business opportunities with this application in different field.

Expert of the session

Mr. Yogesh Sahu, director with Bhopali Tea friends FB Private Limited, is registered with the Ministry of Corporate Affairs (MCA)

Today, a multitude of business organizations are adopting blockchain technology for its capabilities beyond cryptocurrencies, it is used in all major areas of the business from accounting, regulatory compliance to operations. The management of tangible, intangible, and complex assets has become easier, and efficient with the help of blockchain technology.

Conclusion:

This workshop helps the students to know in details all major areas of the business from blockchain technology in accounting, regulatory compliance to operations. The webinar ended with question answer session related to queries on business canvas model. Around 50 participants including students and faculties join this live session.
